

Welcome to Sovereign Court,

I'd like to tell you a bit about our home and our vision and ethos, to assist you when making your decisions about the care you are looking for. We aim to provide the highest standards of accommodation and care within our home, to maintain and improve the quality of life for each individual we welcome into our community and are entrusted with their care.

We are specialists in tailoring person-centred care to each individual, with highly trained and professional care assistants within our teams who work together to deliver the best care for each resident. Our team is motivated and compassionate, quickly learning personal likes and dislikes and working towards a goal of ensuring independence and activity for as long as possible.

We aim to provide a home away from home within a comfortable and attractive setting, where our residents can feel safe and secure. At Sovereign Court, we provide residential care for people with mental disorders including neurological conditions. We also offer respite care which allows you or a carer to have a break and get some much needed rest and recuperation.

We have a home-from-home kitchen area which residents are encouraged to make their own snacks or are assisted to make meals. There communal lounge for socialising and watching television, there is a small communal dining room off the kitchen, which is homely.

Our highly trained care staff work to create an interesting and engaging programme of activities and events within the home. Papillon Specialist Care aims to create a vibrant sense of community within our homes, bringing residents together to socially interact and foster friendships.

We take great pride in our home and welcome you to visit to find out more. Alternatively, you can download our brochure or contact our dedicated team of care advisors, who can guide you through the process and answer any questions or concerns you may have.

Kind Regards,

Graham Coulton, Home Manager
